

Make your next AI move count.

AI programs stall on alignment, risk and adoption — not on technology.

THE GAP

Pilots are easy. Production is where AI programs die.

AI-Ready™ takes an organization from confusion to a prioritized, funded roadmap that reaches production — with the compliance, security and change work built in from day one.

Three principles

01

Align goals with AI

Shared vision across leadership, a prioritized roadmap, a step-by-step plan.

02

Start small, scale smart

Phased delivery that limits exposure and proves value before it asks for budget.

03

Cover the bigger picture

Compliance, security, org structure and change management.

PICK YOUR ENTRY POINT

Three workshops

WORKSHOP 01

Fundamentals

1–3 days · on-site

For managers and teams

What AI can and cannot do for your business today.

WORKSHOP 02

Acceleration

4–8 weeks · hands-on

For AI champions and leads

Mentoring that turns use cases into measurable pilots.

WORKSHOP 03

Strategy

One quarter · advisory

For the executive team

Board-ready roadmap, governance, budget and operating model.

WHY DOFINITY.AI

A senior team that ships.

2022

FOUNDED

100+

SOLUTIONS DELIVERED

100K+

ENGINEERING HOURS

25

TEAM, 5 TIME ZONES

AI-READY™

Book a 45-minute AI-Ready™ session

No slideware. We map two use cases from your own operation.
